Dear Sir/Madam:

I am a stage director, writer, performer and playwright. I have also served as Program Director for the SUNY Purchase Summer Acting Institute. I had the pleasure of working with Andrea Andresakis as a colleague within this program. Her duties were as dance instructor and choreographer for an original adaptation of the works of William Shakespeare.

I have high-esteem for Andrea's abilities as a dancer, instructor and choreographer. As an instructor, I witnessed her extraordinary ability to create a fun and supportive environment that gave her students permission to explore their own creative expression. She has a deep understanding of how to make music transform into movement that communicates a visual story through her choreography. As a choreographer, she is able to enhance and build on a director's concept allowing for a productive and creative collaboration.

Andrea possesses a rare combination of honesty and integrity that is rarely found in today's world. I would recommend her as a talented leader in the theatre community. If you have any questions or would like to discuss any of the above, please do not hesitate to contact me at the above information.

Sincerely yours,

Frank Ingrasciotta
